BIOPURE BIOCLAMP™

BioPure BioClamps™ are a patented plastic tri-clamp with quick release, specifically designed to meet the needs of busy pharmaceutical and bioprocessing laboratories.

- Bio Clamps™ are moulded from glass reinforced nylon USP Class IV
- BioClamps™ reduce the distortion on polymeric components when subjected to heat
- BioClamps™ are more compatible with current Pharmaceutical and Biotech manufacturing with greater flexibility in operation and single use disposal
- Bio-Clamps™ can be repeatedly autoclaved at 134°C for 5 minutes
- Bio-Clamps™ subjected to 60 kGy (6Mrad) showed no detectable weakening

BioClamp™ Patents

UK Pat No: GB2361753

UK Pat No: GB2362428

USA Pat No: US 6,708,377 B2

USA Pat No: 10/026,215
