

Quick Ship Program – 200 Series Centrifugal Pumps

Delivering Centrifugal Pumps Faster than Ever!

Effective immediately, the 200 series pumps will be available in 5 working days or faster.

We are pleased to announce a Quick Ship Program (QSP) covering the most common configurations of Waukesha Cherry-Burrell 200 series centrifugal pumps.

SPX FLOW has tailored its assembly and parts availability to improve our responsiveness for some of the most common configurations. This program ensures an expedited delivery date, cutting down our lead times to 5 working days or less.

Assembled in the USA Backed by 5-year Warranty:

We are excited to announce that 200 Series pumps now come with an extended 5-year warranty.

Count on Holland Applied Technologies to deliver not only reliable products but also peace of mind, ensuring your operations run smoothly with minimal downtime.

Holland Applied Technologies: Your top-level “Platinum” Distributor for SPX FLOW

Holland Applied Technologies is proud to be a Platinum-level distributor for SPX FLOW’s Waukesha Cherry-Burrell and APV brands of equipment. This distinction reflects our extensive inventory and deep application expertise, enabling us to respond rapidly and efficiently to your needs.
